

BE SMART.
STAY SHARP.
STAY DRUG-FREE!

Social Media Campaign Topics

Kansas State University 2026

TOPICS TO COVER THROUGH MEDIA CAMPAIGNS

Fear Factors and Realities
Relevance of Drug usage to Teen Populations
Firsthand Accounts
Popular Trends integration for relevance
Resources for Addiction Support
Health and Safety Stats
Recognizing Signs of Use and Addiction
Alternatives and Recovery
Legality
Lacing

OUR APPROACH

Looking through these slides, we will cover each topic with specific platforms and approaches for all listed. We are aiming for social media campaign concepts that remain informative, are relevant to substance abuse/resources, as well as maintaining relevance to teen populations and the essence of their experiences.

FEAR FACTORS AND REALITIES

Platforms: TikTok and Instagram Reels

Concept Design: Split screen video to showcase a healthy athlete before vs. after drug use (shakes, isolation, loss of motivation).

Caption: "One choice changes everything." or "Actions now guide your future."

RELEVANCE TO TEENS

Platforms: TikTok and Instagram Reels

Concept Design: POV Trends, Geared towards peer pressure

Caption ideas: "POV you try (Insert drug of choice) because your friend said it would be fine, and end up getting arrested."

RELEVANCE TO TEENS

Platforms: TikTok and Instagram Reels

*Concept Design: POV Trends, athletic and activity
drug testing*

*Caption ideas: "POV you get cut from (insert
activity) because you tried (Insert drug of choice)
once."*

RELEVANCE TO TEENS

Platforms: TikTok and Instagram Reels

Concept Design: POV Trends, General motivation shifts

Caption ideas: "POV you are falling behind in all of your classes because you started (Insert drug and delivery method)".

RELEVANCE TO TEENS

Platforms: TikTok and Instagram Reels

*Concept Design: POV failures due to addiction/
hiding things from family.*

*Caption ideas: "POV your family thinks your on a full
scholarship but you lost it because of a surprise drug
test."*

FIRST HAND ACCOUNTS

FIRST HAND ACCOUNTS CAN BE FROM...

- PAST DRUG USERS
- DRUG THERAPISTS AND COUNCLERS
- FAMILIES OF USERS
- DOCTORS AND TECHS WHO HAVE TREATED DRUG USE PATIENCE

Platforms: TikTok and Reddit

Concept Design: Survivor and user stories

Caption ideas: Testemonies through story telling from first hand accounts, Longer threads and stories can be filtered through reddit threads and short flash stories through tiktok.

POPULAR TRENDS TO CREATE RELEVANCE

Embed anti-drug messages in current memes, dances, audio trends.

TikTok is more trends driven, Instagram reels is more applicable to memes.

POPULAR TRENDS

TikTok: Dance trend ends with, "Don't dance with fentanyl, it kills."

Expectation Vs. Reality Trends, "What people think drugs do vs. what actually happens"

Fake text chain trend, "A student realizing their friend overdosed"

Day in the life trend, "Day in the life of someone choosing to stay drug-free"

POPULAR TRENDS

Instagram Reels: Meme Integration

*Bro Thought meme...Bro thought vaping
would make him look cool*

*Said Nobody, Absolutely Nobody Meme...
Trust me its not addictive*

*How it started vs. How it's going meme...
First time trying a substance vs the after
effect.*

RESOURCES

Promote therapy, AA, community, counseling, and other possible resources.

Instagram :carousel & story links

Reddit :resource megathreads

For platform users to have easy access to resources through a swipe or the tap of a link.

HEALTH AND SAFETY STATS.

Share Narcan training, CPR, harm-reduction tools.

TikTok: tutorial style

Instagram :infographic reels

Concept example, "3 steps to save a life with Narcan." Short demonstrations.

These short demos will help provide a resource and increase awareness.

RECOGNIZING SIGNS OF MISUSE

Spot physical/social warning signs: sweats, irritability, hair loss.

Platform: Tiktok and Instagram reels

Concept: Small video examples of identifying signs of misuse with “Not laziness – a struggle.’ Highlight warning signs.”, on a blank screen after each video.

ALTERNATIVES

Highlight healthy substitutions: gum, patches, breathing apps, meditation.

Platform: TikTok, Instagram reels, Reddit Threads

Concept: Showing lifestyle hacks and relatable needs for substituting drug usage. If possible, we could include positive influencers for a wider reach.

RECOVERY

Highlight rehab, coping mechanisms, success stories.

Platform: TikTok and Reddit support threads and communities.

Concept: Lessons learned, personal experiences and growth, overcoming addiction and unforeseen challenges.

LEGALITY

Clarify Delta-8 vs THC vs cannabis laws, and legal consequences of drug use.

Instagram: Educational carousel

Reddit: Discussion boards

Concept example: Instagram reels, Quick infographic breakdown, red Xs vs green checks.

COUNTERFEIT + LACING

Show dangers of fentanyl-laced drugs across categories.

TikTok: visual shock factor

Instagram: infographics

Reddit: harm-reduction subreddits

Concept example, "TikTok: colorful pills → UV light shows fentanyl traces. Caption: "Not everything is what it seems."

RESULT

A well-rounded social media campaign that highlights the dangers of drug usage, provides interventions and alternatives, all while remaining relevant to our target audience. With our target audience being teens, we are using platforms that are most popular for that age group. On top of the platforms, we are targeting current trends to give the information a sense of relevance to younger viewers, making it more likely for them to engage with the content.
