

Lesson 16 – Future Readiness Plan

Developing your personal plan

 In this activity, you will create a **personal future readiness plan**. You will learn to identify your **goals**, anticipate potential **barriers**, and build a toolkit of **healthy coping strategies**.

Welcome to your future

Planning for the future is an important step in your growth. By setting clear goals and identifying the support you need, you can navigate life's challenges with confidence. This activity helps you organize your thoughts so you can move forward with a clear vision.

Term	Definition
Goal	A goal is an objective that you work toward to improve your life or skills.
Barrier	A barrier is an obstacle that makes it difficult to reach a target.
Coping tool	A coping tool is a healthy method used to manage stress and stay on track.

Read the preparation guide

Read the following passage carefully. As you read, ask yourself: How can I turn my personal aspirations into a realistic and actionable plan?

A future readiness plan acts as a roadmap for your life. It starts with a clear vision of what you want to achieve, whether that is academic, personal, or professional. When you define your goal, you give yourself a target to hit.

However, progress is rarely a straight line. Every path has potential barriers, such as lack of time, fear of failure, or unexpected changes. Acknowledging these hurdles early is the best way to ensure they do not stop you from moving forward.

To stay resilient, you must identify healthy coping tools. These can include talking to trusted adults, practicing mindfulness, or breaking big tasks into smaller, manageable steps. When you build a support system, you are never alone in your journey.

Finally, remember that your experiences offer wisdom. By sharing advice with younger students, you solidify your own learning and become a mentor to others.

Building connections

Now, connect the concepts from the text to your own understanding by completing the table below.

Key Concept	Your Understanding	Why is this important?
Future Goals	Things I want to achieve	They give me direction
Possible Barriers	Write your answer here	Write your answer here
Healthy Coping		
+ Add a row or column as needed		

Try it out

Use what you learned to solve the questions below.

Scenario-based Challenge	Response Area
If you face a barrier while pursuing your goal, what is your first step?	Write your answer here
List three trusted adults you can reach out to for support.	
What advice would you give a younger student about staying positive?	

Show what you learned

Create a visual plan to display your readiness goals. Use Magic Media or Elements to help visualise or record your idea.

- **Identify** your main goal clearly.
- **List** two barriers and your coping plan for each.
- **Select** icons that represent your trusted resources.
- **Draft** your advice for younger students.

[Double click to design here]

Reflect on your learning

Think about the progress you made while completing this plan.

Based on the activity, explain how having a 'healthy coping tool' changes your ability to overcome a barrier.

[Write your answer here.]

What was the most challenging part of identifying your future goals?

How will you use these strategies in other areas of your school life?
